ABOUT US

The Learning Resource Centre (LRC) was established with a vision to provide clients with consultancy and training services.

We contribute towards providing technical, operational, soft skills, and professional training and development to competent human resources of all industries of Pakistan. We also develop the expertise in Digital Skills in our emerging Pakistani talent so they can transform them into successful Freelancers and Entrepreneurs.

Our initiatives are empowered to manage operations independently, helping businesses in unleashing their opportunities and tackle challenges in the ongoing business environment. We offer different learning programs with unique and modern training methods which help professionals to unleash their potential that ultimately add efficient value to the organization they serve. We design and deliver high-quality training programs after essential research under the relevant modern umbrellas of the subject(s) to enhance employees' potential by polishing their existing skills and developing new ones.

E- LEARNING & LEARNING MANAGEMENT SYSTEMS

At LRC, we are committed to providing top-quality e-learning services that help our clients engage their learners and achieve their learning objectives. To this end, we offer a comprehensive suite of tools and services, including a learning management system (LMS) and data visualization capabilities.

Our LMS is designed to provide a seamless and user-friendly learning experience. It includes features such as animated introductory videos, interactive activities, gamified assessments, and a wide selection of commercial and free images that are easily publishable on various platforms, including LMS, Moodle, and the web. Our animated introductory videos are an excellent way to introduce learners to a topic or course. They are engaging and informative and help set the stage for the learning experience. Our interactive activities allow learners to explore concepts and ideas in a hands-on way, promoting deeper understanding and retention.

Our gamified assessments are designed to make learning fun and engaging while also providing valuable feedback on learners' progress. We believe that learning should be enjoyable, and gamification is an excellent way to make that happen. In addition to these features, our LMS also includes robust data visualization capabilities that enable our clients to track learners' progress and identify areas where improvement is needed. This information can be used to optimize course content and delivery, ensuring that learners get the most out of their learning experience.

Overall, our e-learning services and LMS are designed to provide a comprehensive and engaging learning experience that promotes deep understanding and long-term retention of knowledge. Whether you're looking to train employees, educate customers, or provide continuing education for professionals, we have the tools and expertise to help you achieve your goals.
